

# October 6<sup>th</sup> & 7<sup>th</sup> site plan

## UKWA and Speed Week event arrival.

On arrival you will be met by a member of staff who will direct you, we would ask that the sailors associated with the UKWA event unhook their trailers and pull them in through gate Four marked on the map above. Speed week guys will be able to leave their vans in the front carpark for the duration of the event but will not be able to camp in this location. Camping for all will be in the marked area booked through reception or the on line system. We must emphasise that there are to be no vehicles in the main dinghy park for the safety of all pedestrians on site. You will require access code 5152 for the week to gain access to the site via the electric gates, all other manual gates are on the code c2013.

There will be two separate slipways one designated for the UKWA event on the Saturday and Sunday and the other for Speed week, please see map above for the allocated slipways. Please ensure all competitors stick to these designated slipways over that first weekend.
