

TSG/ T15 WINDSURFING TRAINING 2010

The Techno Steering Group is organising open training aimed at all T15 sailors across all the regions this summer

These events are at:

Derwent Reservoir	Sat 26th June
Calshot Activity Centre	Sat 26th June
West Pennine	Sun 27th June
Spray Watersports	Sat 25th July
Alton Water	Sun 1st Aug
Croft Farm	Sun 15th Aug
Carsington	Sun 5th Sept

These specific T15 training events are all attached to a Regional inter-club challenge – so why not make a weekend of it. There will be camping available at all venues either on-site or close by.

If you are looking to develop your windsurfing skills further, to be able to enjoy your inter-club challenges more or thinking of trying for a place on the zone squads, why not come along to one or more of these events

Training at all events will be led by an RYA zone squad coach with support from a Fast Forward Instructor. The training will cover all aspects of windsurfing from freestyle through to racing, also covering wave sailing if we get the right conditions

The cost for these training events will be £13 per sailor

You will need to bring a Board and Rig with you though some venues do have charter equipment available for hire

At some events there will be demo kit available – details to follow

Entry details are on the techno website www.techno293.org.uk
